

Simple Net is a Web Site Hosting, Design, Development and Management company with extensive experience in servicing not for profit organisations.

We would like to take this opportunity to introduce you to our services, as we, through our experience and contact with current clients (within the not for profit sector) have established that a web site is an extremely powerful administrative, informative, marketing and fund generating tool for organisations. If you do not have a web site please refer to our "web site packages" (below) for an indication of the services Simple Net can provide/assist you with. If you currently have a web site, Simple Net will provide you with "more sensible" and competitive rates than you are likely to be incurring!

Our work with Volunteering Victoria (and Volunteering Australia) comes highly recommended and you too could benefit from our services, our understanding and experience, within this industry!

Simple Net will assist you in reducing your web site related costs, improving traffic to your web site (as achieved for Volunteering Victoria) and offer you a number of service agreements for enhancements to your web site as alternatives to pay by the hour development and maintenance.

Please do not hesitate to contact us to arrange a meeting, or for more information.

Web Site Packages: From \$550

Including:

- Domain Name Registration
- Web Site Hosting
- E-mail Accounts
- Web Site Design
- Content Development
- Web Site Marketing (increase traffic).
